

Package Type **T.D3**

Mounting Force **24.0 ÷ 28.0 kN**  
Nominal Weight **510 g**

**D<sub>s</sub> 31.6 (1.244)**

*The surface creepage distance is defined as the shortest path along the ceramic surface between the anode flange and the gate contact*

**D<sub>a</sub> 16.5 (0.649)**

*The air distance is defined as the shortest direct path between the anode flange and gate contact*
